	Conference	Training	Robotics, autonomous systems, artificial intelligence
	European, national, regional project	University course Postgraduate studies	C4ISTAR: command, control, communications, computers, information/intelligence, surveillance
	Policy	Journal	Cybersecurity
Title:			
Humanoid Robotics, Artificial Intelligence and Automation			
Description	The 2020 conference is focusing on the theme “ Humanoid robotics, AI and Automation ” to enhance and explore the latest trends & future aspects of current technology on humanoid robots among the IT professionals, mechanical engineer, scientist, researchers and innovators along with the Industrial community to establish corporations and exchanging ideas for a better understanding of the field of humanoid robotics, AI and automation and its future aspects. Humanoid 2020 aims to provide the right stage to present stimulating keynote talks, plenary sessions, panel discussion, b2b meetings, posters, symposia, video presentations, and workshops.		
Goal	To to enhance and explore the latest trends & future aspects of current technology on Humanoid robotics.		
Organizer	Conference Series LLC Ltd		
Co-organizers/ Patrons			
Topics	humanoid robotics, artificial intelligence, automation		
Date	21-22.05.2020		
Costs
