<b>Title:</b>			
<b>International Conference on Robotics and Mechatronics</b>			
Description	The ICRoM 2020 will provide a premier interdisciplinary platform for scientists, researchers, industry leaders, engineers and educators throughout the world to present and discuss the most recent innovations, trends, concerns, as well as practical challenges encountered, and streamline solutions in the fields of Automation and Mechatronics Engineering. The meeting will provide an opportunity to highlight recent developments and to identify emerging and future areas of growth in Robotics and Mechatronics.		
Goal	The main goal of ICRoM 2020 is to address latest original results in advanced intelligent control of automation systems, including both theoretical advances and practical implementations.		
Organizer			
Co-organizers/ Patrons			
Topics	mechatronics and robotics, FMS artificial intelligence, automation and control systems		
Date	19-21.07.2020		
Costs	\$550
