

Fiche developed in the frame of 	TYPE:		AREA:
	Conference	Training	Robotics, autonomous systems, artificial intelligence
	European, national, regional project	University course Postgraduate studies	C4ISTAR: command, control, communications, computers, information/intelligence, surveillance
	Policy	Journal	Cybersecurity
Title: C4ISR Symposium			
Description	The symposium will be moving into several new directions. Membership in AFCEA International provides access to an unrivalled forum for public and private sector professionals in the communications, intelligence and information technology arenas to interact and share ideas. To this end, AFCEA holds world-renowned conventions, expositions, conferences, and symposia to keep its members up-to-date on the state of their industry.		
Goal	The principle theme, Artificial Intelligence and machine learning will be the subject of a number of new permanent panels covering Command & Control, Communications, Computers and Networks, Cyber, ISR, Space, and Expeditionary Warfare.		
Organizer	AFCEA International		
Co-organizers/ Patrons			
Topics	Artificial Intelligence, Machine learning, Command & Control, Communications, Computers and Networks, Cyber, ISR, Space, and Expeditionary Warfare		
Date	17-18 November 2020		
Costs
