Title: European Robotics Week, ERW			
Description	<p>The European Robotics Week (ERW) was conceived at the European Robotics Forum (ERF) 2011 by the desire of the European Robotics community to bring robotics research and development closer to the public and to build the future Robotics Society.</p> <p>Since then and every year, the ERW has offered one week of various robotics related activities across Europe for the general public, highlighting the growing importance of robotics in a wide variety of application areas and the growing importance of skills in science, technology, engineering and math (STEM).</p> <p>ERW takes place in many European cities, in various languages to be accessible to general European public.</p>		
Goal	ERW aims at inspiring technology education in students of all ages and general public to pursue careers in STEM-related fields.		
Organizer	euRobotics Aisbl		
Co-organizers/ Patrons	European Robotics community, hosting universities and other organizations		
Topics	Robotics, artificial intelligence, autonomous systems, machine learning, STEM		
Date	19-29 November 2020		
Costs	free
