Title: INDUSTRIAL ROBOT			
Description	Industrial Robot publishes peer reviewed research articles, technology reviews and specially commissioned case studies. Each issue includes high quality content covering all aspects of robotic technology, and reflecting the most interesting and strategically important research and development activities from around the world.		
Goal / Target audience	Managers and engineers responsible for the design, development and application of robots.		
Publisher	Emerald Group Publishing Ltd.		
Topics/ Content	<ul style="list-style-type: none"> • Automatic assembly • Flexible manufacturing • Programming optimisation • Simulation and offline programming • Service robots • Autonomous robots • Swarm intelligence • Humanoid robots • Prosthetics and exoskeletons • Machine intelligence • Military robots • Underwater and aerial robots • Cooperative robots • Flexible grippers and tactile sensing • Robot vision • Teleoperation • Mobile robots • Search and rescue robots • Robot welding • Collision avoidance • Robotic machining • Surgical robots
