

Fiche developed in the frame of 	TYPE:		AREA:
	Conference	Training	Robotics, autonomous systems, artificial intelligence
	European, national, regional project	University course Postgraduate studies	C4ISTAR : command, control, communications, computers, information/intelligence, surveillance
	Policy	Journal	Cybersecurity
Title: INTERNATIONAL JOURNAL OF SOCIAL ROBOTICS			
Description	<p>The journal publishes original, peer reviewed articles and contributions on innovative ideas and concepts, new discoveries and improvements, as well as novel applications, by leading researchers and developers regarding the latest fundamental advances in the core technologies that form the backbone of social robotics, distinguished developmental projects in the area, as well as seminal works in aesthetic design, ethics and philosophy, studies on social impact and influence, pertaining to social robotics.</p> <p>The journal aims to provide an overview of the current state of the social robotics scene, how the field and related technologies are set to evolve in the future, and their impact on society at large. It also provides researchers in diverse fields - from engineering, to the social sciences - and developers in the area a consolidated volume which details the latest developments and act as an international forum for all issues within the editorial focus.</p>		
Goal / Target audience	Provides an overview of the current state of the social robotics field, Highlights innovative ideas and concepts, new discoveries and improvements, as well as novel applications in the core technologies of social robotics		
Publisher	Springer		
Topics/ Content	Robotics, Biomechatronics, neuro-robotics, biomedical robotics, Compliance, Human-robot interaction, robot-robot interaction, Roboethics , Intelligent control and artificial intelligence for social robotics		
ISSN	ISSN print: 1875-4791 ISSN online: 1875-4805
