	Conference	Training	Robotics, autonomous systems, artificial intelligence
	European, national, regional project	University course Postgraduate studies	C4ISTAR : command, control, communications, computers, information/intelligence, surveillance
	Policy	Journal	Cybersecurity
Title: ROBOMECH JOURNAL			
Description	<i>ROBOMECH Journal</i> focuses on advanced technologies and practical applications in the field of Robotics and Mechatronics. This field is driven by the steadily growing research, development and consumer demand for robots and systems. Advanced robots have been working in medical and hazardous environments, such as space and the deep sea as well as in the manufacturing environment.		
Goal / Target audience	The scope of <i>ROBOMECH Journal</i> encompasses all practical aspects of the theory and methods of Robotics and Mechatronics.		
Publisher	Springer		
Topics/ Content	Robotics, mechatronics, Artificial intelligence		
ISSN	ISSN print: ISSN online: 2197-4225
