International Conference on Electrical, Computer, Communications and Mechatronics Engineering																					
Description	<p>The International Conference on Electrical, Computer, Communications and Mechatronics Engineering (ICECCME) is the premier event that brings together industry professionals, academics, and engineers from the related institutions to exchange information and ideas on electrical, computer, communications and mechatronic engineering.</p> <p>The conference will feature a comprehensive technical program offering numerous technical sessions with papers showcasing the latest technologies, and applications.</p> <p>All submissions will be subject to double blind reviews and accepted papers will be submitted for inclusion in IEEE Xplore.</p>																				
Organizer	IEEE-Mauritius Section																				
Topics	<p>Electrical Energy Generation, Transmission and Distribution Renewable Energy Systems, Solar Technology Electrical Machines Power Electronics Computer Vision Artificial Intelligence, Machine Learning Computer Networks Big Data Signal Modelling for Audio-Visual Communication Telecommunication Systems Data Mining Digital Communication Systems Fiber-optic Communication Mechatronics Engineering, Micro Mechatronics, Mechatronics in Energy Systems Advanced Manufacturing Intelligent Control Fault Detection and Diagnosis in Mechatronics Systems IoT and sensor networks Robotics and automation Engineering applications supporting the SDGs</p>
