Title:			
5TH WORLD CONFERENCE ON SMART TRENDS IN SYSTEMS, SECURITY AND SUSTAINABILITY (WORLDS4 2021)			
Description	<p>5th World Conference on Smart Trends in Systems, Security and Sustainability (WorldS4 2021) will going to be held in London, UK during July 29 - 30, 2021. This world conference will provide the participants with opportunities to discuss and explore areas related to the Theory, Development, Applications, Experiences and Evaluation of Interaction Sciences with fellow students, researchers and practitioners. Conference may concern any topic within the conference scope. Workshops may be related to any topics within the conference scope. The conference is devoted to increase the understanding role of technology issues, how engineering has taken an evolvement to prepare human friendly technology day by day.</p>		
Goal	<p>Propose new technologies, share their experiences and discuss future solutions for design infrastructure.</p> <p>Provide common platform for academic pioneering researchers, scientists, engineers and students to share their views and achievements.</p> <p>Enrich technocrats and academicians by presenting their innovative and constructive ideas.</p> <p>Focus on innovative issues at international level by bringing together the experts from different countries.</p>		
Organizer	World Conference on Smart Trends in Systems, Security and Sustainability		
Topics	<ul style="list-style-type: none"> • Smart IT infrastructure for sustainable society • Smart management prospective for sustainable society • Smart secure systems for next generation technologies • Smart trends for computational graphics and image modeling • Infrastructure and computation • Engineering applications • e-Governance and government • Intelligent systems & health informatics 		
Date	29-30.07.2021		
Costs	350-450 £
