

Fiche developed in the frame of  	TYPE:		AREA:
	Conference	Training	Robotics, autonomous systems, artificial intelligence
	European, national, regional project	University course Postgraduate studies	C4ISTAR: command, control, communications, computers, information/intelligence, surveillance
	Policy	Journal	Cybersecurity
Title: XVI. International Conference on Military Electronics Systems Engineering ICMESE			
Description	XVI. International Military Electronics Systems Engineering is the premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Military Electronics Systems Engineering.		
Goal	The aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Military Electronics Systems Engineering.		
Organizer	World Academy of Science, Engineering and Technology		
Co-organizers/ Patrons			
Topics	Circuits and Systems, Analog Circuits, Digital Circuits, Mixed Signal Circuits, Nonlinear Circuits and Systems, Sensing and Sensor Networks, Filters and Data Conversion Circuits, RF and Wireless Circuits, Photonic and Optoelectronic Circuits, Low Power Design and VLSI Physical Design, Biomedical Circuits, Assembly and Packaging, Test and Reliability, Advanced Technologies (i.e. MEMS and Nano-electronic Devices), Computers and Information Technology, Computer Architecture, Computational Biology and Bioinformatics, Knowledge and Data Engineering, Learning Technologies, Multimedia Services and Technologies, Mobile Computing, Parallel/Distributed Computing and Grid Computing, Pattern Analysis and Machine Intelligence, Software Engineering, Visualization and Computer Graphics, Communication Systems, Communication Theory and Information Theory, Antenna and Propagation, Microwave Theory and Techniques, Modulation, Coding, and Channel Analysis, Networks Design, Network Protocols and Network Management, Optical Communications, Wireless/Mobile Communications & Technologies, Controls, Control Theory and Applications, Adaptive and Learning Control System, Fuzzy and Neural Control, Mechatronics, Manufacturing Control Systems and Applications, Process Control Systems, Robotics and Automation and more		
Date	16 Aug 2022 - 17 Aug 2022		
Costs	€300 - €500
