Title:			
International Conference on Industry 4.0 and Smart Manufacturing			
Description	The International Conference on Industry 4.0 and Smart Manufacturing (ISM) is a yearly open forum fostering the smart culture and exploring the transformative impact of digital technologies characterizing the 4th industrial revolution across the full breadth of economic sectors.		
Goal	ISM promotes the cross-fertilization of multidisciplinary knowledge bringing together a global community of eminent academics, research innovators, professionals, leaders and policy makers committed to build more efficient, agile, safe, sustainable and ethical systems; encourages the dissemination of the latest scientific advances, research results and industrial stories to strengthen the theoretical base of Industry 4.0; and provides a stimulating ground for business-to-science cooperation opportunities.		
Organizer	Upper Austria University of Applied Sciences		
Co-organizers/ Patrons			
Topics	Additive Manufacturing, Artificial Intelligence: Practical Applications, Autonomous production, Analytics and Big Data, Blockchain, Cloud Computing, Cyber Physical Systems, Cyber Security, Digital Twins, Economics & Business Models, Innovative Education Models, Ergonomics and Social Factor, Human-Machine Interaction, Industrial Internet of Things, Smart and Digital Supply Chains, Maintenance and Lifecycle Management, Manufacturing Technologies, Product & Process Design, Production Systems and Supply Network Engineering, Project and Risk Management, Quality Management & Assurance, Robotics, Occupational Health & Safety, Simulation, Smart Operators, Sustainability-oriented production, VR/AR Applications		
Date	02 Nov 2022 - 04 Nov 2022		
Costs	Early Registration €495, Late Registration €595
