Title:
Advances in Artificial Intelligence and Machine Learning

Description	Advances in Artificial Intelligence and Machine Learning is a global, peer-reviewed open access online journal, committed to timely publication of original work in Artificial Intelligence and Machine Learning. In addition to original research, the journal encourages review papers, including mini-reviews focused on a very specific topic.
Goal / Target audience	The mission of the Advances in Artificial Intelligence and Machine Learning is to provide a context on the study of Artificial Intelligence and Human Wellbeing, human cognition, artificial systems, autonomous machines, etc.
Publisher	Shimur Publications
Topics/ Content	<p>The topics covered by the Journal include but are not limited to:</p> <ul style="list-style-type: none"> • Artificial Intelligence – Theory and Practice, • Approximate and Probabilistic Reasoning, • Artificial Intelligence in Medicine and Healthcare, • Autonomous Vehicles, • Big Data, • Bioinformatics, • Biometric Systems, • Brain Computer Interface, • Computational Intelligence, • Computer Visions, • Fuzzy Systems, • Genetic Algorithms, • Graphical Models in Machine Learning, • Human-computer Interface including Assistive Systems, • Kernel Methods in Machine Learning, • Natural Language Processing and Understanding, • Neural Networks, • Optimization, • Pattern Recognition, • Quantum Methods in Machine Learning, • Robotics, • Statistical Learning Theory.
